INTRODUCING SEA-DOO SPARK™ LIFESTYLE

For 2014, Sea-Doo is introducing a new PWC, the Sea-Doo Spark, a fun new way for your family to play on the water. This unique PWC experience features a compact and lightweight design that makes it playful to ride and maneuver, simple to own and easy to tow.

Check out our wide range of accessories and customization options, plus our new Rec Lite riding gear collection, made to go perfectly with the Sea-Doo Spark, and our colorful sportswear collection, designed in the same spirit. Now there's nothing holding you back. With the new Sea-Doo Spark matching accessories and riding gear collection, your family's turn to join the fun has arrived.

SHARE your Sea-Doo Spark lifestyle pictures.

THE FUN LASTS LONGER WHEN **SAFETY** IS IN THE DRIVER'S SEAT.

When you're the driver of a personal watercraft, you need to take the safety of your passengers personally.

As the "captain," you are not only responsible for adhering to the safety rules respecting personal watercraft use, but also for ensuring your passengers are wearing the appropriate protective equipment and riding gear.

First of all, you and your passengers are required to wear an approved personal flotation device (PFD) certified for use with a personal watercraft.

Also, a wetsuit and/or neoprene bottoms will provide adequate protection to the lower part of the body. You can suffer severe internal injuries if water is forced into a lower body cavity as a result of falling in the water or being near the jet thrust nozzle. Remember that normal swimwear cannot appropriately protect against forceful water entry.

Finally, extra protective equipment such as footwear, gloves and goggles is also recommended. The fun lasts longer when safety is in the driver's seat.

You can find all of these items at an authorized Sea-Doo dealer or online at store.sea-doo.com.

WE PUT TOGETHER A CREW OF RIDERS LIKE YOU. THEN WE TURNED THEM LOOSE TO PUT OUR **2014** RIDING GEAR AND ACCESSORIES THROUGH THEIR PACES.

SPARK LIFESTYLE
Look for the Splash icon throughout the brochure, and locate the Sea-Doo Spark items.

Products in this catalog will be available for purchase at your authorized Sea-Doo dealer and online at store.sea-doo.com in December 2013. For advertising purposes, some scenes depicted in this brochure include professional riders and operators executing under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your Sea-Doo watercraft or boat. RIDE SMART FROM THE START. Always ride responsibly and safely. Follow all instructional and safety materials. BRP recommends a minimum operator age of 16 years old for riding a watercraft. Always wear appropriate protective clothing for your type of boating use, including a Coast Guard approved personal flotation device. Always remember that riding and alcohol/drugs don't mix. Operate your craft keeping a safe distance between yourself and others. Always observe applicable local laws and regulations. Because of its ongoing commitment to product quality and innovation, BRP reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring any obligations. Some models depicted herein may include optional equipment. Prices are based on Manufacturer Suggested Retail Prices. Dealers may sell for a different price. Taxes not included. “The gear you wear should be an expression of who and what you are.”
— Ashley Sponaugle

BEN HORAN

Professional Wakeskater

MOST DEFINITELY LIVING THE DREAM

At only 26 years of age, Georgia native Ben Horan is at the top of the wakeskating world.

With countless video parts and contest wins to his credit, as well as a Wakeskater of the Year title and co-ownership of his own brand, Remote Wakeskates, Ben Horan is most definitely living the dream.

And readily admits Sea-Doo helped get him there. An owner long before he became a sponsored rider, a Sea-Doo was actually the very first purchase Horan made with his paychecks from a local skateboard shop. “The pros that I looked up to at the time, guys like Thomas Horrell and Aaron Reed, all used Sea-Dos,” explains Horan. “I wanted to ride like them. That’s honestly why I bought one.”

It was a wise decision. Over the years that followed, that Sea-Doo along with an abundance of natural talent and hard work, helped push Horan to the top of the sport, and earned the respect of both fans and peers.

“Ben is a grounded, humble human being that comes from an incredible family,” says renowned sports photographer Josh Letchworth. “They are supportive of one another, eclectic by nature and go with the flow, all of which make up who Ben is as a person and how he approaches his wakeskating.”

“His commitment to skateboarding most of his life obviously plays a huge role in his riding as well. Ben sees lines and tricks that many can’t visualize. He’s calm, confident, sets

his intention and has been rewarded greatly because of it.”

Though he’s come a long way from that kid at the skate shop, Horan hasn’t wavered in his choice of a Sea-Doo to get the job done. “It’s just super user-friendly,” he says of his preferred WAKE 155. “When I first got into wakeskating my girlfriend was driving me, and then I got my skater friends into it. They’re super easy to drive, and super fun to wakeskate behind. You get a ton of time on the water behind a Sea-Doo. They’re just really awesome.”

Horan also gives high marks to the WAKE’s Ski Mode cruise control (“it’s always the perfect speed”), the advantage of a tow pylon to keep the towrope out of the craft’s jet wash, and Sea-Doo’s renowned Intelligent Brake and Reverse. “When a rider falls, most people do like a hot lap to get back,” says Horan. “That just ruins the water, sending rollers down your line. With the brake you can stop and just turn right around, pick up the rider, and get back to business. It’s so perfect.”

Even the WAKE’s wakes received praise. “It’s a fun little roller to do tricks on. For beginners, that’s the best way to learn board control, just hopping around on the wake and figuring it out.”

“That’s how I learned all my tricks.”

“The pros that I looked up to at the time, guys like Thomas Horrell and Aaron Reed, all used Sea-Dos.”

MEN'S RASHGUARD
Lightweight, cool protection for even the hottest days. SPF 50 UV sun protection from the 6 oz. (170 g) Nylon/Spandex materials. Mock turtleneck collar design also has a boardshort connector.

PERFORMANCE

“You have to trust your equipment when you’re going into the first turn, and that includes your riding gear. The X-Team gear feels like a second skin that becomes a part of you and doesn’t slow you down.”

PERFORMANCE

“Everybody has their own style and the X-Team line of gear is designed for the racer who wants to be seen on the water with enough options to build the perfect gear package.”

— Jeremy Schandelmayer

The X-Team neoprene Riding Jacket can be worn over your PFD, providing greater comfort during inclement weather riding.

FORCE PULLOVER PFD
Ultra durable neoprene outer shell and lining with soft PVC foam inserts for maximum comfort. Anatomical cut with large armholes and strategically placed mesh drain panel for riding comfort. Heavy-duty side zipper and two woven straps with quick release buckles for easy ingress/egress. D-ring for lanyard connection and at back neck for goggle-to-PFD attachment cord.

286436 • S, M, L, XL, 2XL • Yellow (10)
\$149.99

JAMES BUSHELL
Professional Sea-Doo Racer

TO BE THE BEST YOU HAVE TO USE THE BEST

“I just love racing. I love going down the start and grabbing the holeshot. You can’t beat that feeling!”

Q Scores are used to measure the level of an athlete’s popularity at any given moment. In the world of personal watercraft racing, it’s safe to say no one’s Q Score is currently higher than that of Sea-Doo X-Team member James Bushell.

Without question the rider to beat in Pro Runabout contests around the world, this athletic Brit with the model looks has become the new face of Sea-Doo performance by riding his Sea-Doo RXP-X 260 to nine championships worldwide over the past three years. The highlights include a back-to-back, double-double — winning both the 2011 and 2012 IJSBA Pro Open and Pro GP World Championships.

“I love riding the Sea-Doo RXP-X 260”, says Bushell. “The handling is so superior to everything else on the track. I have won my fair share of championships in the past, but now with the RXP-X and the support of Les Cooke (head of Sea-Doo Centre and arguably the most renowned Sea-Doo watercraft racing tuner on the planet), our effort is at a different level. I can go to any race in the world and feel confident we are going to be at the front of the pack. It is really fun times to be racing a Sea-Doo.”

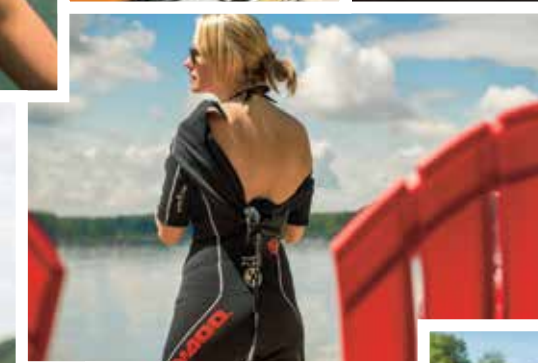

One of the most approachable big-name, professional-watercraft racers

in the paddock area, Bushell radiates a low-key, down-to-earth demeanor that is inviting to fans.

But make no mistake, deep down resides a burning desire to win, and win everything — every single time he is on the water. “I love this sport, I love meeting different people around the world, but obviously the main goal is to win”, he emphasizes. “I just love racing. I love going down the start and grabbing the holeshot at 125 km/h. You can’t beat that feeling!”

Bushell has an added incentive to succeed. He’s the director of his own UK-based BRP dealership, 158-Performance. “It’s pretty cool to have a customer come into the store, or stop by our booth at the London Boat Show, and see a huge poster of me on the wall or in the brochure and ask, ‘Is that you?’ and be able to say ‘yes.’ They see me on the machine, they see me wearing the Sea-Doo Performance X-Team wetsuit, PFD, gloves, booties, everything. It’s cool!”

And certainly does a lot for one’s Q Score.

These charts show body measurements. Be sure to measure yourself to find the accurate size.

HOW TO MEASURE
For best results, have someone else take measurements. Measure body in swimsuit or underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

HEIGHT
Stand with back straight, without shoes; measure from the top of the head to the floor.

CHEST
Measure under your arms, around the fullest part of your chest.

WAIST
Measure around your natural waistline, keeping one finger between the tape and body.

HIPS
Stand with legs together, measure around the fullest part of hips, ensuring the tape is level.

ACCESSORIES

A full line of accessories for the new Sea-Doo Spark allows you to make it your own. Various products have been developed in conjunction with bringing the Sea-Doo Spark to the water to add functionality and style, making it a watercraft like no other.

The Chill Shade is a versatile sun shade that was engineered to be mounted on the Sea-Doo Spark while underway on the water or easily removed and set up on the beach, providing shade on the sunniest of days.

CHILL SHADE
Don't go looking for shade - bring it with you. The innovative Chill Shade provides versatile protection both on the water and the beach. It can even be used at speeds up to 35 mph (56 km/h) when properly set. The system can be easily installed while out on the water and stores conveniently on a Sea-Doo Spark model. Made of colorful netting, it comes with 2 pouches that can be used as sand anchors on the beach.
Sea-Doo Spark
295100574
\$149.99

SNAP-IN FENDERS
Protect your investment with easy to install and remove fenders designed specifically for Sea-Doo watercraft. Pre-molded holes front and rear on the Sea-Doo Spark models ensure a solid mount in the optimal spot. High visibility red color keeps them in sight. Sold in pairs. Patent pending. Requires Snap-in Fenders Installation Kit (295100550) to install on models other than Sea-Doo Spark.
Sea-Doo Spark
295100418
\$99.99

The Sea-Doo Spark transom step makes it easy to reboard from deep water after taking a swim or following a wake session. The Sea-Doo Step easily mounts on the transom and can be installed by any authorized Sea-Doo dealer in minutes.

SEA-DOO STEP
Convenient step with knee-friendly surface for deep water boarding. Installs easily on the right side of a watercraft and can hold up to 250 lb (113 kg).
Sea-Doo Spark
295100494
\$99.99

SNAP-IN FENDERS INSTALLATION KIT
(Not illustrated)
Installation kit for 2009 and up watercraft lets you enjoy the fastest, easiest way to install protective fenders on your watercraft.
295100550
\$19.99

“So this is the most playful watercraft I’ve ever been on.”
— Corrie Wassum

CARGO NET
With a 4L (1.05 US gallon) capacity, this cargo net keeps regularly used items in place. The mesh material allows water to drain out easily and air to circulate, perfect to stow your snap-in fenders, tow ropes or diving mask. An elastic cord allows you quick access, while keeping your items secured.
Sea-Doo Spark
295100559
\$39.99

FRONT STORAGE BIN KIT
Soft-sided design matches the contours of the Sea-Doo Spark model to maximize storage. Polyurethane construction protects items from rough waves and those spirited rides. Drain holes at bottom. Lid is included. Maximum storage capacity: 28 liters.
Sea-Doo Spark
295100504
\$149.99

FRONT DEFLECTOR LID KIT
Made of polypropylene, this deflector directs water away from the driver’s feet and legs on those colder days, but removes quickly when things heat up.
Sea-Doo Spark
295100553
\$89.99

GRIP MAT
Developed specifically for the Sea-Doo Spark, this EVA foam material grip mat ensures both comfort and traction as you play on the water. Allows to reboard to a cushioned platform while protecting it from wear and tear. Easy to install with the double sided tape attached to the mat.
Sea-Doo Spark
295100556
\$109.99

SIDE PROTECTOR
This 3-piece rubber formed protector is specifically designed for the Sea-Doo Spark. Its curves and angles follow the lines of the unit to enhance the look while protecting from small impacts and wear. Allows installation of the Snap-in Fenders and maintenance with no problems.
Sea-Doo Spark
295100575
\$149.99

GRIP MAT EXTENSION
Developed specifically for the 3up Sea-Doo Spark, this EVA foam material grip mat ensures both comfort and traction as you play on the water. Allows to reboard to a cushioned platform while protecting it from wear and tear. Easy to install with the double sided tape attached to the mat. For full protection on a 3up, add the Grip Mat (295100556).

The Sea-Doo Move family of trailers offer user-friendly features and are engineered to fit the hull of your Sea-Doo watercraft perfectly, making loading and unloading really simple. Choose the Sea-Doo Move that suits your need.

▶ WATCH the Sea-Doo Move Trailers video at: store.sea-doo.com/video

SEA-DOO SPARK MOVE II TRAILER

A trailer made specifically for your Sea-Doo Spark PWC. Weighing 40% less than other Move II models, and 25% shorter, the new Sea-Doo Spark Move II totally redefines traveling light. You can actually tow it with a standard sedan since it's under 1,500 lb. even when loaded with two Sea-Doo Spark units. And it comes pre-calibrated, so you're good to go, from the get-go.

✓ The Sea-Doo Move family of trailers won the prestigious NMMA Innovation Award in the watersports equipment category for "making launching and retrieving faster and easier, while keeping safety in mind."

GETTING THERE IS HALF THE FUN

A watercraft trailer does much more than get your Sea-Doo from your home to the water. Your Sea-Doo is a premium piece of high performance hydrodynamics and should be cradled by something of equal quality, such as a Sea-Doo Move Trailer. The most active Sea-Doo rider may spend 50 days a year on the water. That leaves 315 days, or 8260+ hours your Sea-Doo is NOT on the water.

The rest of that time your Sea-Doo rests on top of your trailer on its way to the water or back from it, or waiting for the next adventure. Ensure your watercraft is resting on strong, clean roller or carpeted bunks and your trailer's capacity is rated to safely cradle your watercraft load. Owning a quality Sea-Doo Move Trailer will help ensure your next trip to the local ride spot or 100+ miles family trip is trouble free.

— Willy Carmine,
Route One Motorsports President.

CHOOSE THE SEA-DOO MOVE THAT SUITS YOUR NEEDS.

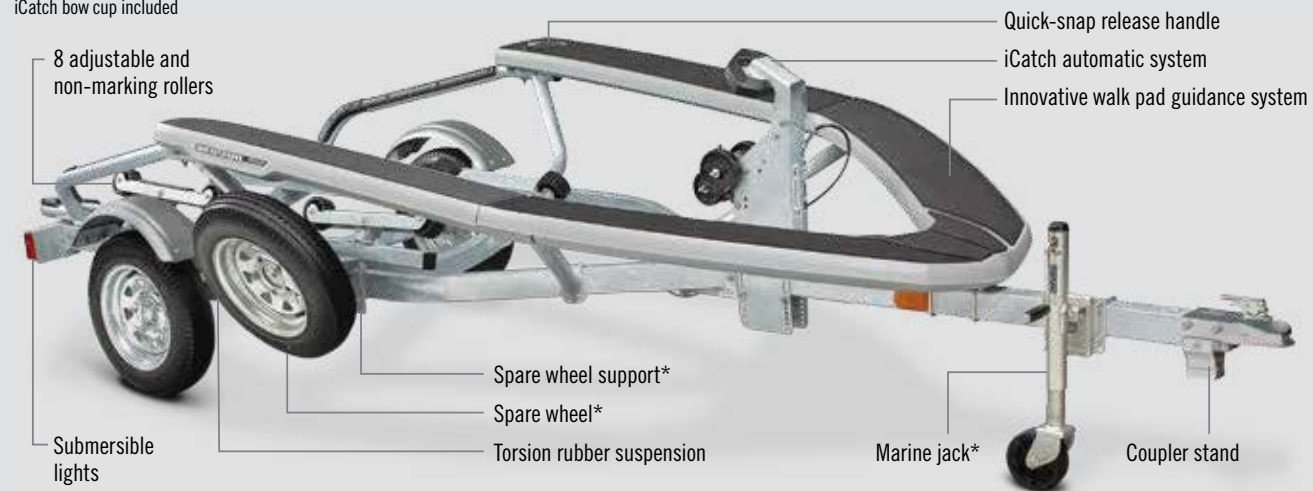

SEA-DOO MOVE TRAILERS

- The iCatch™ system allows you to spend less time on the ramp and more time in the water, while the walk pad serves as guidance when the trailer is underwater.
- Roller bunk system simplifies unloading and loading.
- Fully adjustable carpeted bunks (side-to-side/front-to-back) allow you to change bunk angles to fit all watercraft.
- Custom frame design requires less water to load and unload watercraft.
- Sealed maintenance-free wheel bearings for added peace of mind.
- All models are available in galvanized frame for extended life in all weather conditions or in a black painted version.
- Adjustable bunk system and catcher adapt to different types of Sea-Doo watercraft, and help properly position watercraft to improve handling while towing.

*Models shown with optional accessories.

Sea-Doo Move I with iCatch and walk pad

iCatch bow cup included

With torsion suspension

Overall length	4.1 m	Coupler	5 cm
Overall width	1.8 m	Approx. weight	163 kg
Width between walk pad	1.3 m	Carrying capacity	519 kg
Overall height (walk pad)	90 cm	Tire size	4.80" x 12"
Overall height (iCatch)	107 cm		

The iCatch Move trailer is the most innovative trailer system available, making trailering, launching and loading effortless. The roller bunks and loading rails guide the watercraft into the proper position and the iCatch automatically "catches" the watercraft, locking it in place to pull out of the launch ramp.

*Models shown with optional accessories.

WHY I DOO.

Here's what riders like you are saying about BRP Riding Gear & Accessories.

SKI MODULE

"Wakeskating is really technical, so holding a steady speed is crucial. The Ski Mode makes driving really easy and ensures you get a consistent pull every time."
Ben Horan, Wakeskater of the Year

FORCE PULLOVER PFD

"I wore the X-Team PFD as part of the race's approved safety equipment. It's got everything you can ask for in a PFD including a nice snug fit, good padding in the chest and back without the feeling of being overly bulky, solid lanyard hook, race approved safety buckles, and a side entry fit that helps prevent the PFD from coming off when in the water."
Kevin Wassum, Ultimate Sea-Doo Fan, contest winner and rookie racer

XPS SPRAY CLEANER AND POLISH

"I really liked using the XPS spray cleaner and polish. These products kept my race winning RXP-X shining while out front on the track and on the beach."
Chris MacCluggage, Watercraft Racing Hall-of-Fame member and 15X Champion.

XPS LUBE

"Our teams are logging roughly 300 hours on our Test Ride Tour units in four months and they are put in salt water, muddy water, and every type of water. To ensure the engine, electrical and mechanical connections are protected and lubricated during this demanding use, XPS LUBE is invaluable."
Dalton Platt, Sea-Doo Test Ride Tour Technical Specialist

SEA-DOO RIDING BOOTS

"The Bootie has a great fit, lightweight, drains water well and most important, incredible traction!"
Cody Hawkins, Professional Sea-Doo Racer

RETRACTABLE SKI PYLON

"The Sea-Doo Ski Pylon helps make doing tricks so much easier as it helps pull me up during tricks rather than down."
Nick Taylor, NIKE/Sea-Doo Team Rider

SEA-DOO SPEED TIE

"Our event team goes through the docking process up to 300 times a day and the Sea-Doo Speed Tie makes our life so much easier as riders can tie up and stow the rope so fast. People really see the value of the Speed Tie system when we use it all day long."
Ryan Gros, Sea-Doo Test Ride Tour Event Specialist

DESTINATION BOUND SEA-DOO LIFE

Owning a Sea-Doo invites exploration, from simply discovering what's around the next river bend to going out and experiencing whole new worlds. Feeling the travel bug? Here are five of our favorite worldwide choices.

BIMINI, BAHAMAS

Every year, hundreds of Sea-Doo enthusiasts take to the Atlantic waters off South Florida en route to Bimini, an island paradise located roughly 80 km east across the Gulf Stream. One reason they make the journey is to enjoy the unbelievably beautiful emerald blue waters of the Bahamas. Another? Well, let's just say there's a certain cachet that comes with telling people you've ridden a Sea-Doo through the Bermuda Triangle...and returned to tell the tale.

We won't kid you: a Gulf Stream crossing is not

for the unprepared. But those up to the challenge, both mentally and physically, will be rewarded with a treasure trove of memories, including the Sapona shipwreck, downed smugglers' planes, and the infamous Bimini Road, an undersea highway with a mysterious past.

Looking for an escort? Check out the annual Bimini Road Rally, an all-inclusive guided tour put on by the same people who plan high-profile Sea-Doo media events.

MUST-HAVE GEAR: SEA-DOO AMPHIBIOUS RIDING GOGGLES

It only takes the spray of that first wave to remind you an ocean crossing can be brutal on the eyes. Protect them with goggles. Unlike sunglasses, they'll stay on your face; like them they offer UV protection to keep the sun's rays at bay.

LAKE HAVASU CITY, ARIZONA

If there is one location worthy of a PWC pilgrimage, it's Lake Havasu, Arizona. Longtime home to the annual International Jet Sports Boating Association World Finals, Havasu is the epicenter of the PWC universe every October as racers and their fans from countries far and wide descend upon its sunny shores to do battle in this picturesque lake on the Colorado River.

Havasu has a unique history. The city was developed by chainsaw magnate Robert McCulloch, who literally purchased the London Bridge and transported it, block by block, from England to Arizona to serve as the city's focal point. Visitors can now visit the bridge above by road, or below by boat, navigating the canal McCulloch had dredged for this very purpose.

The fun, however, shouldn't just be confined to the city limits. Bring your Sea-Doo, or rent one if you have to, and venture north along the Colorado River to the scenic cliffs of Topock Gorge.

MUST-HAVE GEAR: SEA-DOO RASHGUARD

The combination of the desert heat and sun can be brutal. Take a dunk in your Sea-Doo rashguard to enjoy the benefits of evaporative cooling — and SPF 50 UV protection.

We'll spare you the Great White North jokes. Canada would seemingly get more attention from the Ski-Doo crowd than their Sea-Doo counterparts. But those who dismiss the country based on its snowy rep are missing out on some truly beautiful watercraft riding. And perhaps no area epitomizes Canada's watery beauty better than the Okanagan Valley, a picturesque setting located halfway between Vancouver and Calgary.

Home to the massive Okanagan Lake, as well as 200 smaller lakes scattered throughout the region, the Okanagan Valley is found within the Interior Plateau of British Columbia. With the majestic Coast Mountains blocking the flow of moist air from the west, summers are — surprise! — actually warm and dry, the perfect weather for enjoying your Sea-Doo.

Looking for things to do off the water? The area features numerous hiking and biking trails. Those seeking for a more relaxing pursuit will want to plan a visit to one of the countless wineries that occupy the bluffs bordering the lake.

MUST-HAVE GEAR: DELUXE COMBO WETSUIT

Extend your riding season — and fend off any unseasonable chill — with a versatile Deluxe Combo Suit. It offers the warmth and protection of a john, and the added bonus of a jacket should temps get a little too cool.

OKANAGAN VALLEY, CANADA

What could sound more appealing than a visit to Corsica, a beautiful French island located in the middle of the Mediterranean Sea? Formed through volcanic activity, Corsica — literally nicknamed the Isle of Beauty — is the most geographically diverse of the Mediterranean Islands. Its mountainous backdrop offers awe-inspiring views, but it's the island's 1,000 km of Mediterranean coastline that has made it a favorite of beach and watersport lovers.

Highlights of a Sea-Doo focused trip to Corsica include the Cap Corse peninsula and its

quaint coastal fishing villages; the black-pebble beach and medieval village of Nonza on the cape's western coast; Les Calanques de Piana, dramatic red-granite cliffs that tower above the Mediterranean; and the uninhabited Lavezzi Islands, a favorite for snorkeling and diving.

Off the water? Besides the obvious restaurant and nightlife possibilities, you may want to rent a bicycle. Corsica hosted the first three stages of the 2013 Tour de France.

MUST-HAVE GEAR: SPEED TIE

Island hopping involves a lot of docking and the Sea-Doo Speed Tie can be mounted on any modern Sea-Doo model making tying up easy with 7' (2.1 m) of retractable dock line that can be locked at any length both from the helm and the stem.

GOLD COAST, AUSTRALIA

There's a good chance that Australia is on more than its fair share of Sea-Doo enthusiasts' wish lists. After all, there's just something about a continent that's its own big, sun-drenched island, seemingly filled with friendly, laid-back residents.

Though the choices are endless, it's hard to argue against a visit to the iconic Gold Coast. Check out Surfers Paradise, with its combination of beaches and cafes, restaurants, fashion and nightlife; the sophisticated Main Beach to the north; and the

almost European feel of Broadbeach to the south. All offer plenty of possibilities, both on and off the water.

Locals, however, will advise you not to miss the white-sand beaches — and tranquil lagoons — of South Stradbroke Island.

Largely undeveloped, it's a great spot to get away from the hustle and bustle, as well as a favorite spot to camp. Just don't be surprised if a friendly wallaby decides to wander up to the fire; hundreds call the island home.

MUST-HAVE GEAR: SEA-DOO BOOTIES

Traction is essential, whether you're carving a Gold Coast wave or exploring an unfamiliar shoreline. Sea-Doo booties offer traction, ankle support, and feature mesh panels and a perforated sole for quick drainage.

CORSICA, FRANCE

PARTS

“I always use OEM stuff. I’ve never had a problem even after thousands of hours of riding: so I just continue using OEM parts.”
— Jeremy Schandelmayer

5 ESSENTIAL BRP GENUINE PRODUCTS TO ENSURE A PROPER TUNE-UP

MAINTAIN THE LEVEL OF FUN

KEEP YOUR SEA-DOO HEALTHY FOR A LONG LIFE.

Sea-Doo watercraft are engineered to give families a decade of fun on the water. To help ensure the on-water fun is maximized, some off-water care is required. BRP provides a full array of care and maintenance products to ensure your Sea-Doo looks its best and performs at peak levels.

Suggested Off-Season Products

- **XPS FUEL STABILIZER** – Protect against fuel contamination and residue build-up in the fuel system during extended storage.
- **XPS STORAGE OIL** – Protect your internal engine parts from rust and corrosion due to condensation during prolonged periods of non-use.
- **YUASA SMART SHOT AUTOMATIC BATTERY CHARGER** – When your watercraft battery is removed from the unit, keep it connected to ensure maximum charge.

Suggested In-Season Products

- **XPS LUBE** – This multi-purpose lubricant and water dispersion product should be used to prevent rust, corrosion and moisture intrusion.
- **XPS PWC CLEANING AND DETAILING KIT** – Keep your watercraft clean and protected to ensure your gelcoat, vinyl and other surfaces stay looking new.
- **WATERCRAFT COVER** – While not in use, keep your watercraft covered to protect it from the sun and elements.

MAKE THE RIGHT CHOICE

BRP’s commitment to quality means that every watercraft is engineered to the highest industry leading standards. Nevertheless, a lack of proper maintenance may cause even the best components to fail eventually.

By using original BRP maintenance parts, you are taking care of your investment.

Products available at your authorized participating Sea-Doo Dealers only. Consult your authorized Sea-Doo dealer, a guarantee of excellence in the maintenance of your personal watercraft. Only authorized dealers can offer original BRP, Rotax and 100% Sea-Doo products and parts.

"The Sea-Doo Flush Kit is easy to use, and flushing after rides is part of taking proper care of my watercraft."

— Tommy Bishop-Strahlo

IMPELLER

High performance impeller designed specifically to maximize your Sea-Doo watercraft and boat performance. Ask your authorized Sea-Doo dealer which one fits your vehicle and your use.

TOP REASONS WHY YOUR BRP ROTAX ENGINE DESERVES XPS

- Extra engine protection for heavy loads and high RPMs.
- Friction modifiers designed for optimal clutch performance.
- Additional corrosion protection for wet environments and periods of extended non-use.
- All climate synthetic base oils for easy starting.
- Years of extensive R&D and rigorous testing with industry leading Rotax engines.

MAINTENANCE PRODUCTS

XPS SYNTHETIC GREASE
Recommended for marine applications. This synthetic grease provides the best wear protection and water-resistance available.
