Operator's guide, instructional video and booklet

PROPELLION SYSTEM

iBR[®] (Intelligent Brake & Reverse) system

First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 3rd generation, the intuitive and improved iBR[®] allows you to stop close to 160 feet sooner⁴ for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Delivers improved acceleration, higher top speed and less cavitation.

OPTIONS / ACCESSORIES
